This design is quite beautiful. The style is very posh and I think it is a dressing table for an older audience and also has a lot of storage space. The shape and a lot of storage space. The stool has a round shaped cushion which would be very comfortable. It doesn't take up that much space in a room.

I think this design could be simple. I think it looks a bit old fashioned as if it would of been used years ago, however people today could still use it. The design is simple and I think it would appeal to someone who likes products to look natural. The mirror is very large and looks quite flat, which would be a nice space on the top surface for things (eg lamp, perfume).

I really like this design because it is very simple. I think it wouldn't have a lot of space for storage. The shape of the table top is rounded and different. It looks nice. The mirror is very shiny, it also has a small mirror which makes it different from usual dressing tables.

I think this design is very modern. I like the way they have designed the mirror, it looks as if it is able to be closed but it isn't. The drawers are a nice color, they look warm. There is 6 drawers which is very good for storage. I also like the way the stool is designed, it is a nice color and it is a nice shape.

I think this design is very nice. It is a very nice design for children, it has a lot of storage space. The drawers are colorful, which gives it the effect. I also like the colors that have been used, it doesn't look like a young girl's. The product looks very aesthetically pleasing and has lots of storage space.

I think this design looks like a princess dressing table. It has like an enchanted theme to it, many drawers included, so lots of storage space. I don't particularly like the green with the pink. I think it clashes. A young girl would be attracted to it.
