Research

Find a product that has been sold as a souvenir. It could be made from any material and from any country. Draw it and fill in the spaces provided. On your drawing use notes to describe where it came from, how much it cost, what it is made from, how you think it was made. Indicate how the product has been 'finished' - painted, varnished etc

List the things you like about the product, and perhaps what you consider its weaknesses.

Strengths

Weaknesses

TEACHER COMMENT
You can improve your research work by:

EFFORT
E: Excellent
G: Good
RFI: Room for improvement
C: Concern

Skills	
 <p>During this lesson you will develop communication skills by:</p>	<p>Clearly recording your research findings.</p>

Research and Analysis

The size and shape of your Key Holder will depend upon what it will hold – Keys.

- *Very carefully and neatly draw three different keys in the space below. Use a ruler to draw the straight lines.*
- *Measure and write down all of the measurements or dimensions that you think are important for each key.*

Answer this question

- Apart from the dimensions what other facts about keys might be important when you design the key holder?
